DECIDED NOT TO DISPOSSESS.

A City Marshal Fled in Haste from a Quarantined Tenement. At the Reception Hospital this morning it was said that the man Mendeschank, taken there last night from 806 Eleventh avenue as a cholera suspect, had passed a quiet night and that he seemed to be suffering more from the effects of a spree than from any disease

resembling cholera.

Supt. Edson reported at noon to-day that schank did not have cholers. No. 866 Eleventh avenue is a four-story

double tenement-house. The twenty fam-flies who have apartments in it be-came much excited when the surgeon of a Roosevelt Hospital ambulance, who had been called to attend the sick man, pro-nounced his case one of cholera and refused

nonneed his case one of cholers and relused to remove him. Highd quarantine was put upon the apartments of the Seager family, with whom Mendeschank lived. A city marshal called there this morning to dispossess the Seagers, but when told that they were quarantined because of suspected cholers in their rooms, the Marshal fied incontinently.

Quarantine was raised to-day in all suspected houses in the city.

Capt. Moeller, of the Hermann, who came ashore to see Dr. Jenkins this morning, said to an Evisnisa World reporter:

"It is true that Gen. Hamilton was on board my ship, but it is also true that he was not in the steerage. He was no deck all the time, and forward most of the time, except a little while when he went aft, but he didn't go below into the steerage and he couldn't tell whether it was dirty or not."

Dr. Jenkins received a letter from Gustave Schwab, agent of the North German Lloyd lines, this morning, saying that he did not give Dr. Hamilton permission to board the Hermann, and that he was surprised to learn that Dr. Hamilton had been on the ship.

Capt. McKenzie, of the tug Crystal water, which removes the cholera victims and patients to Swinburne Island, did not obey the order of Port Collector McKiroy to show cause this morning why he should not be rined \$1.000 because his tug was not properly equipped.

The action was forwarded from Washing.

We have, however, undertaken to build a great nation upon a plan especially our own. To maintain it and to furnish through its agency the means for the accomplishment of national objects, the American people are willing through Federal taxation to surrender a part of their earnings and income.
